

### 1. Rules for laboratory activity

1. The attendance at labs is **highly recommended**.
2. Each laboratory has a *homework assignment to be delivered in the next laboratory*
3. No more than two lab problems will be delivered in one lab meeting. An extra lab problem is delivered only if time allowed.
4. **After presenting the homework - assignment the solution (documentation in electronic format + source code) will be archived (scsUserId\_LabNumber.zip) and saved on a CD to be given in the last laboratory.**

### 2. Grading

1. Lab structure
  - a. *First hour of each lab* is dedicated to the current lab discussion, problem assignment and *in-class problem solving*.
  - b. Students are expected to be prepared for the lab: the homework must be done at home and presented in *the second hour of the next laboratory (exception last laboratory work)!*
2. The grade received to a laboratory takes also into consideration the answers of the students regarding the laboratory work.
3. Respect delivery dates for each lab assignment. The delay in lab file submissions is penalized with 1p from that lab grade, for every week of delay.
4. The laboratory work represents 25% of the final grade.
5. The lab grade will be determined as the average of the grades of all the lab works. If a lab file is not delivered, its grade is 0.
6. **During lab number 4 a practical examination (BBT and WBT) is graded with 25% of the final grade.**
7. A copied lab paper means cheating and will be graded with 0 (zero).

### 3. Laboratory scheduler

Assignment Date	Activity	In-class assignment	Homework Due Date First	Homework Due Date Last (-1point delay for each week)
Laboratory 01	Inspection	Laboratory 01	Laboratory 02	Laboratory 06
Laboratory 02	Black-box testing Testlink	Laboratory 02	Laboratory 03	Laboratory 06
Laboratory 03	White-box testing EclEmma	Laboratory 03	Laboratory 04	Laboratory 06
Laboratory 04	<b>Practical examination</b> + Levels of testing Maven, SVN, Jenkins	Laboratory 04	Laboratory 05	Laboratory 06
Laboratory 05	Web testing Selenium Web Driver.	Laboratory 05	Laboratory 06	Laboratory 06

	Serenity			
Laboratory 06	Correctness ESCJava2	Laboratory 06	Laboratory 06	Laboratory 06

Table 1. Laboratory schedule

#### 4. Conditions to participate at the final exam

- **normal session and retake session**
  - There is no restriction regarding participation to the normal session and to the retake session.
  - The lab activity (for the retake session) is the same with the one obtained during didactic activity period. No labs are allowed to be delivered during retake session, neither the practical examination.
